UNIVERSITY OF RIJEKA

FACULTY OF ECONOMICS AND BUSINESS

## STUDY PROGRAM IN BUSINESS ECONOMICS INTERNATIONAL BUSINESS

At EFRI, we firmly believe in our students and their competencies, and that they have a lot to offer to the world. We started our study program in English in 2011, and over the years, we have had students from all around the world.

By adopting the Bologna process, our Faculty has become a part of the European Higher Education Area (EHEA). We strive to offer high quality and worldwide recognized study programs. All of our study programs are designed in line with the latest professional and scientific standards.

We started as the first, and so far, the only Faculty in the region offering university study programs in Economics completely taught in English. Since 2011/12, we have been offering university undergraduate study programs in Business Economics - International Business, and from 2014/15, we started offering university graduate study programs in International Business as well. Moreover, most of our postgraduate specialist and doctoral study courses may also be held in the English language.

We adhere to the highest quality standards. Our programs have been accredited and are currently undergoing accreditation processes within various associations of higher education institutions. As education represents one of main factors in the development of a knowledge based economy, we aspire to pass on to our students the notions and knowledge which will give them the competitive advantage and thus primacy on the labor markets.

Faculty of Economics and Business encourages students' creativity and innovation and offers its support and financial and technical assistance in establishing student spin-off.

**The entire Management Board, teaching and administrative staff, as well as your future fellow students, welcome you to our EFRI!**

The city of Rijeka is third by size in Croatia, situated in the Kvarner bay, surrounded by hills and mountains in the hinterland, islands on the horizon and small picturesque towns nearby. Rijeka, with all its rich history, is not a well known artistic city, but it is recognized by many experts and true connoisseurs. Rijeka is a city with a turbulent history that has developed into a unique, multinational, multi-religious and multicultural city with a vivid cultural and artist scene. Rijeka is authentic and a city of culture, creativity and innovation.

In the year 2020, it's Croatia's turn to for a city of the country to be named the European Cultural Capital, chosen among many other bigger and more famous cities.

The city's trademark event is the annual carnival, an event which probably best shows the spirit of the city most people only pass by on their way to the South.

If you prefer to reach high speeds without the help of engines, no problem, go skiing. Yes, near Rijeka. You can reach Platak within 30 minutes from Rijeka and enjoy skiing with sea view from there, or enjoy a hike along marked hiking paths near the Risnjak National Park.

The city has a number of great beaches, some of which are only a few kilometers away from central Rijeka and you can even reach them by public transport.
