KEYNOTE SPEAKERS

Prof Joan Costa-i-Font

Professor Joan Costa-i-Font is a Professor of Health Economics, the team leader of the Ageing and Health Incentives Lab (AHIL), and a faculty associate of the International Inequalities Institute at the London School of Economics. He is a network research fellow at CESifo (since 2008), HEDG (since 2007) and IZA (since 2017). He has taught at the University of Barcelona, Università Cattolica, and Paris Dauphine, and has held visiting research positions at the University of Munich (2008), Oxford University (2009), Boston College (2013) and UCL (2016).

Joan has earned both a Harkness Fellowship at Harvard University and a Marie Curie Postdoctoral Research Fellowship at the LSE. He is a visiting scholar in policy evaluation at Sciences Po in Paris in 2022/23 and has been the principal investigator in several research projects and has served as a consultant for a number of international (the World Bank, the Inter-American Development Bank, the World Health Organisation, Public Health England and the European Commission), and national organisations (Cabinet Office, NIHR, Public Health England, House of Lords).

Prof Aleksandra Torbica

Prof. Aleksandra Torbica, MSc, PhD is the President of the Italian Health Economics Association (AIES) and President-Elect of the European Health Economics Association (EuHEA). She is the Associate Professor at the Department of Social and Political Sciences and until 2023, she was the Director of Centre for Research for Health and Social Care Management (CERGAS) at Bocconi University, Milan, Italy. She holds the MSc degree in Health Economics, Management and Policy from Bocconi University and PhD in Economics and Management of Public Organizations from University of Parma.

Aleksandra's work is driven by ambition to generate knowledge that creates tangible social impact. Her research interests lie on the intersection between health economics, health policy and public health as she believes that creating bridges between different disciplines and methodologies is the only way to understand complex phenomena.

She obtained several research grants and coordinated important research projects funded by the European Commission and international donor agencies. She co-authored more than 100 papers in prestigious outlets in health economics, health services research and health policy fields. Since 2016, she is serving as Co-Editor of Value in Health journal. In the period from 2020 to 2021 she has acted as Special Advisor to the Chair of Pan European Commission on Health and Sustainable Development, endorsed by WHO Regional Office for Europe.

1923 | Driving change
for generations

Driving Change for generations

Od samog osnutka naše tvrtke radimo na tome da osobama s kroničnim bolestima pomognemo živjeti punim plućima i zdravim životom. Dok ljudi danas žive dulje nego ikad prije, sve veće stope pretilosti i dijabetesa prijete zdraviju i prosperitetu budućih generacija. Zajedno s našim partnerima idemo i dalje od medicine kako bismo ojačali prevenciju bolesti i ranu intervenciju pokrećući promjene za zdravlje generacija koje dolaze – s konačnom težnjom svijeta oslobođenog tereta kroničnih bolesti.
