ENTRIES TO RIJEKA

IF YOU COME VIA TRIESTE OR LJUBLJANA...

Descending from Matulji towards the city center you have a magnificent view over the entire Kvarner Bay, from the mountain Učka at whose foot is situated Opatija to the islands of Krk and Cres. Your route partly involves driving on the former racing track used for motor races for the Great Adriatic Prize before Grobnik Track was constructed. By taking the straight road along the coast you will arrive at the swimming pool of the "Swimming Club Primorje" next to which is the football stadium "Kantrida" where Football Club Rijeka played its matches.

The stadium is very interesting because it was erected on the spot of the excavation made for the constructing of the city port. Following the same route, you'll be passing alongside the industrial units among which you'll notice Rijeka's shipyard "3 Maj" which sprang from the shipyard "Ganz - Danubiuz", then near a large petroleum refinery, the skyscraper of "Novi", well known daily newspaper, the town park Mlaka after which follows the hospital complex. The central of the complex is the former maritime Military Academy, the institution where the Austrian and Hungarian officers were educated from 1866 till 1918. Finally, you arrive to the railway station which is the western borderline of Rijeka's city center.
