*International Environment
and European Integration*

July 1st - July 12th 2024
Rijeka, Croatia

EFRI SUMMER SCHOOL 2024

“International Environment and European Integration“

July 1st - July 12th 2024

The goal of EFRI Summer School is to expand the understanding of students specializing in economics, law, political sciences, business, and related fields. This program aims to enhance participants' knowledge about the economic integration process in Europe, shedding light on the myriad advantages and challenges posed by economic integration and the business environment. Through a comprehensive exploration of these themes, the Summer School seeks to foster a nuanced perspective and a deeper appreciation for the intricacies of economic dynamics within the European context.

Programme consists of **lectures, workshops and group assignments** which are to be completed with the support of academic supervisors. EFRI Summer School is created so that students with basic knowledge of EU and those who want to know more can follow.

EFRI Summer School programme also encompasses cooperation with the **local community**, visits to successful **Croatian companies, and other important institutions**. The Lecturers are from Croatian and European Universities, as well as other institutions.

All classes and activities within the EFRI Summer School are completely held in the **English language**.

With successful completion of the program, participants obtain 6 ECTS points which may come useful in students' further education.

The deadline for applications is June 15th 2024.

The EFRI Summer School is co-financed by the University of Rijeka Foundation and Erasmus+ Jean Monnet - Modules

Igor Cvečić
Special Advisor of the EFRI Summer School

Founded in 1961, the Faculty of Economics and Business of the University of Rijeka (EFRI) continues to respond to the increasingly competitive and challenging environment in which we live and work. The Faculty is a modern institution that performs **undergraduate, graduate and various post-graduate study programmes in the field of Economics and Business**. Since 2011 it has offered an International Business - study programme taught in English (undergraduate and graduate study), and since the academic year 2015/2016 online learning study programme Entrepreneurship. We are the first Faculty in Croatia that has its **mobile application (EFRI app)**.

The Faculty is one of the University's most important and active components, with **more than 2,000 students**. The Faculty of Economics and Business in Rijeka was **among the first ones to introduce scientifically based contents, courses and research work in Croatia, founded on the theory and practice of Economic association and Integration of countries and their respective economies**. The Faculty collaborates with eminent foreign universities, both in the field of research and organization of joint conferences, student exchange, summer schools, and others. Throughout its entire history, the **Summer School has educated more than 350 participants from over 30 countries of Europe and the world** (Republic of Croatia, Belgium, France, Slovakia, Czech Republic, Ukraine, Kazakhstan, Uzbekistan, Armenia, Mexico, Slovenia, Bosnia and Herzegovina, Serbia, Canada, South Korea, Russia etc.). The life of the students at the Faculty is colourful and exciting. Student conferences, case study challenges and workshops are organized regularly by the Career Centre of the Faculty.

The Faculty's study programmes provide **life-long learning programmes, mobility within the international academic community, and extracurricular activities**. The Faculty's **collaboration with the industry provides for students' professional growth and development and their successful employment and competitiveness** in a dynamic economic environment. EFRI fosters the development of its employees' potential, rational utilisation of material resources, continuous quality assurance, and enhancement of international competitiveness of its teaching and scientific activities.

Faculty's mission: "In the international environment, we develop entrepreneurially oriented and socially responsible managers and contribute to the development of science. Our Vision Through continuous development, the Faculty will be recognized as a socially responsible and desirable higher education institution and a partner to the community in creating a sustainable society".
